

Once more VANTA VAARPU!

This time JAC seems to be quite serious in their action plan. But one will wonder why KCR suddenly jumped into JAC's meeting and order to do things. Already there is a feeling that JAC is run by orders from TRS. That's not an issue for the dedicated decade old Telangana activist or intellectual. However, it is not so good for uniting other sections, groups, and other parties. They have declared about going to intensify the movement. First programme in the schedule, is Vanta Vaarpu. This time KCR with his family will cook and eat food on the roads and asked JAC leaders to also do the same by inviting their spouses.

Schedule is clear.. Vanta Vaarapu, but the MENU of this seems to be lacking any unity or uniformity with each one coming up with one's own formulas. One of the activist here in Mahaboobnagar told that he has sold two goats and celebrated Vanta Vaarpu in a big way on the roads last year, when they called for it on second time, he has sold whatever he had to prove his solidarity. Now he will do it again hopefully and hopefully thinking this is FINAL vanta vaarpu. But what will he sell now? Gochi..the last piece of cloth? This is what the grass root activist asked. Well, this is to inform you what a rural, common man, who is desperately in need of Telangana more than any one else, thinks of the strategies of the leaders and strategists.

Again, once Again, there is mention of Vanta Vaarpu in the intensified agitation for statehood! Vanta Vaarpu called by none other than TRS.

We have to rethink about how powerful our programme and movement is and why do we such 'innovative' gestures? On one hand, the TDP, with support of State is spoiling the spirit of Telangana and sending wrong signals to people, managing! On the other hand, our own poor, Congress MPs, MLAs are pleading their goddess the millionth time. What a pity, look at their shameful status. They plan to go to Delhi and speak secretly to their bosses about the movement! Someone from JAC was saying that they are the right people to share about movement with central govt..Wah! What strategists the JAC is made of. Is the movement happening within four walls and in secret ways that common man cannot see it? Intelligence and Sonia do not have track of things happening here, that Congress chelas only can explain to her secretly? We have to pity our people and the leaders who are ready to believe the cheap tricks of anybody and any number of times.

One has to seriously think, why central govt is not serious or interested to think of T issue. Contribution of TRS & KCR is well known to the public. But the 9th December statement is based on people's anger, fire too. People are ready to do anything once again. Then why the agitations are going the Vanta Varrpu way? Dont we need to think that some thing is serious and secretly being cooked in the name of renewed agitation at all levels? Within and outside? We have already given ultimatum, deadline for resignations. And immediately we have seen Jaipal Reddy's callous, calculated, sarcastic comments. What does it convey? And we also saw the Congress leaders pleading again and again Manmohan, Sonia, Pranab. Knocking everyone's doors with a begging bowl. What is still left, somebody has already touched their feet, by making mockery of the spirit and self respect of Telangana.

Poor Ramdev thinks that he can change India by his fast, can fastings and rallies bring change? It is just one form of protests, isnt it? Or the opposite of it –cook well and eat well- be more effective? Can Vanta Vaarpu's and yatras, conferences bring Telangana? If that is true, we would have had so many Telanganas by now.

TRS is the only political party, which is committed to telangana, thats what they say and we hear. Well, it has whole and sole responsibility to bring pressure on other leaders, why the party is silent? Why it has to wait till the 5 states elections? Why it has to spare all other parties? Why dont they have continuous action plan?

While the fastings and vanta varpus are talked time and again, we are losing and allowing the enemy loot our jobs, lands, water, granites, coal etc. Our friends have no time to speak about it. Polavaram is out and Pranahita is in today. Now those issues are also outdated. If we are claiming that we have only one party, than that party should be able to take blame also. They are responsible for gains and losses both. And also partly the people are to be blamed for not making our leaders to work properly? Not able to identify the good leader at least? Are we still under illusion that one fine morning, Sonia will have a dream and will grant Telangana? Without any agitation, without any pressure will that happen again? Dont we know that Silence of TRS is the big advantage to other parties? Are we not responsible for 600 deaths of innocents?

We are not going to be trapped again into talking about recipes and menus!

Please act!

Jai Telangana!

Sujatha Surepally
