

Something is wrong with Azad/ Adhishtaanam?

I think every one is carefully watching the T-Congress leaders Delhi fashion parade, their helpless situation in front of High command. Every time they are going to Delhi and they are saying the same thing to Azad, Pranab, Soniya, Chidambaram etc etc., same episode , re telecasting, repeating, same roles and frames, not even change in dialogue, costume etc. The Last supper! even after great sacrifices of resignations, (they are great Messiahs these are looked high than sacrifices of 650 innocent lives, Either Azad is deaf , mentally not well or forcing our leaders to take back resignation. Poor congress leaders, they cant say that to us openly. They are eagerly waiting that Central Govt should come out with some tool, technique, mantra that will passify the movement and save their seats, berths. What nonsense is happening in Delhi? how many more days are we going to wait, listen the same thing, now some one says its next four months, three months, political betting, how much is on each head? i say few more lives and till 2014, what you say?

we are losing precious lives for no reason.We have govts which will not understand other than physical violence perhaps, all this peace, suicides, studies, reports, breaking our own heads seems to be futile now. Its already proved that Central Govt is not bothering our leaders at all, as they did when CA leaders resigned in December, 2009. Is it the number game or the package CA offering to SoniyaMMA.

One way our gifted brothers are seriously moving with their own plans of Polavaram, they are desperate about it , they dont mind our Adivasis, Bhadrachalam and Dandakaranyam submerging, CA business men are also taking care of their investments in Hyderabad. Some people are continuously asking , sticking to Hyd, either as union territory, joint capital, laks of crores of rupees etc. Some are with greedily grabbing resources, some more are planning to attack our people, today, there was an attack by them in Krishna District ,Penuganchiprolu on our Nalgonda(Anantharam Village) 3 dalit brothers, who went their to visit Thirupatamma temple, suddenly Seema Andhra Channels become dumb, deaf, blind. Even if a pig delivers ten babies they telecast it, but not this news, no one has any clue now, if T channel isnt there , there is no news at all. Do we have fourth estate in our country? Alas! if they live there and occupy their lands like in our place? what do they do? Hellow! is there any dalit leader, emancipator listening to this? or they are also following the footsteps of Azad..i doubt.

One should see Vakkalanka Ramana's note/conditions/demands seeking 'rights' for people living in Telangana, Now please dont be surprise, they also talk about rights you see! in Andra Jyothi daily (21st July, 2011). Omm! What brains yaar! fit to be in criminal groups. Are we not surprised of our miserable lives living with these crooks for these many decades? I just mention their demands, excuse me if there are mistakes, Here is the true translation..enjoy reading it.

1. Special police stations in Telangana entry points Kodada, Nagarjuna Sagar, Alampur, on highway line, one for 20 kms. At the time of festivals they need more Seema Andhra police force.(I know, you are all having now new ideas)

2. They need strong act like SC, ST atrocities Act to protect Seema Andhra people if they are abused, attacked, must be punished strictly, like Human Rights Commission, Sc. ST Commission, members have to be appointed and a judge must be Seema Andhra person. (How many telangana Judges are there in all these years?)

3. They may lose their jobs if Telangana state is formed, so they should be employed in Seema Andhra Govt otherwise they will continue here till their retirement(even if they are not taken into their own govt, we have to bare them, mind it!)

4. Telangana born, seven years of education is enough to consider as telangana citizen.

4. There should be separate ministry with some budget allotment for their protection of Culture, literature, languages, statues , expansion.

5. After showing the employment opportunity only Telangana govt can take back their occupied lands. If they are more than ten members losing at same time, there should be a committee, comprising of all the regions(only ten members? i think in one galli of hyd we can find them)

6. Special committee for protection of Film industry. Freedom should be given to the Print and electronic media, websites to write in their dialect, according to their own choice. No attacks , bias on the regional, language , strong protection is needed.

7. All should stand with Telangana people when there are inter state disputes, but keeping the country in view, Seema Andhra people should be given freedom to express their views. (what a concious, please dont faint)

All these are possible only when there is proper political representation(dhana, maana praanaalu, bhaasha samskruti pari rakshana) 21 MLA and 3 MP seats for Seema Andhra. They should not stand in elections for their own selfish reasons(please note this! dont get heartache) Those who have more than 20 crores(how many do you think will fit?)

8. Seema Andhra people in Telangana should have two votes, one to vote for general candidates and one for Seema Andhra,

Finally! Finally! ONLY AFTER ALL THESE TELANGANA SHOULD BE DECLARED.

30% seats in greater corporation in Hyderabad, Deputy Mayor post should be reserved for SA.

TO DEFINE SEEMA ANDHRA THERE SHOULD BE EXPERT LEGAL COMMITTEE FROM OUT SIDE STATE. If there is any dispute on defining any person's status , there should be a committee chairman, judge from outside state possessing decision powers, there should also two members from Telangana and two from Seema Andhra judges in the committee. Central Govt must appoint this committee after discussing with state and center.

After discussing with Seema Andhra people from different fields, some more protection measures will be initiated. All these must be included in the Constitution under special provision. ONLY THEN SEMMANDHRA PEOPLE'S DHANA, MAANA, PRAANA, SAMSKRUTI, SAMPRADAYAALAKU, SELF RESPECT CAN BE PROTECTED. If all these are not discussed its only treated as one side.

-THE END-

Friends, how does it look? i think we are fools that in our own land, we have lost all the above rights..here people are advanced, framing the laws too, so tomorrow, even in our own land, you have to live under their terms and conditions..we should thank the author giving us an idea.

There is a limit!
