

## PRESENT TELANGANA MOVEMENT- A VIEW

### Expected Reasons for the delay of demerging of telangana state

Might be People are in confused that Why the Government, political leaders & even Opposition Party Not involved for **Evaluating Properties At Hyderabad & its Surroundings by CBI legally?**.

Might be frequent **power cuts / tv cable signal dropping while watching the TV in telangana regions especially in Hyderabad & its surroundings**. This may be evidence of deprivation on telangana people by seemandra rulers. May be telangana people recognized that **kiran, jaypal, makesh, dhana, anjan, narasimha have links with seemandra political leaders by passing wrong information** still now to Sonia & may be playing double games with telangana people for there own profits in Hyderabad.

May be people Knowing that only very less than 10% seemandra people live in Hyderabad surroundings with illegal properties & revenues. **Remaining 80 % TELANGANA People Are living in Hyderabad with out even comforts, employment, & with huge poverty etc.**

May be People Surprised that WHY Government is not recognizing about the actual ratios/figures about telangana people in Hyderabad.  
**Employees & there families who are in telangana movement only becomes more than 50% of population in Hyderabad**

May be even common people are recognizing that congress is in the support of seemandra for only political reason (NO game/seats) & not for people problems. (Any political party exists / created in any country according to the majority of people intentions, decisions & aspirations of people). Political party means not fighting for own party leaders decisions, political party means fighting for people decisions. Party means people, **In democracy people decisions forms & create --Structure for Party Agendas.**

May be government **Bluffing / Showing New Jobs For Telangana People & Protecting Semandra People Jobs In Hyderabad & Its Surrounds** which are really belong to telangana region people. May be people confused that **Why There Is Forcibly Continue Two States Since From Decades With Out One Side Repulsion.**  
( Even nature rule says **Every Organism Has To Be Divided In To Different Forms**, for different food habits, with different taste & thinking, in different living spaces of this nature for continue existence of life form on the Earth ).

People May be expecting that congress government will fall in either both states because of the Jagan may be sweeping off in seemandra & in telangana sankeerna parties may exist. May be people also thinking that Alternatively if congress gives telangana now it can lead in telangana region for next 7 years definitely.

May be seemandra people who are working in state government especially in police departments & other government departments are already shifted to Hyderabad & its surrounding before years ago **in greater Hyderabad regions & permanently settled by rotating there jobs within the Hyderabad & its surroundings regions only, especially in government jobs of lower cadre posts simple ex:( police stations(administration)etc.** may be this made **seemandra people to settle permanently / habituated in Hyderabad & its surrounding areas unethically**. Justice is that Seemandra people who are settled with out transferring/shifting from Hyderabad & its surrounds has to leave & release the job for poor telangana people in Hyderabad & its surroundings'. Or this crisis may reach to peak stage where state control can be lost in the future.

May be all the **Telangana people done every thing what a human being can do** for separate telangana state, also & now becoming gladiators to revolt. May be people hoping that It is unethical to GOVT OF INDIA to has a silent.  
May be people appreciating the Respected Harish (A Gladiator) in all aspects & may people Need / Raise like harish in the future because **Truly telangana people proposed to government ethically, legally, formally, lawfully & also sacrificed precious lives, lost time, lost employment, lost beliefs & hopes Etc.** I don't think so More than this an human being can do. And definitely the result will be Crisis.

**May be GOVT OF INDIA is proving the words of sree Krishna committee that (until there is peak level of telangana movement there should not be formation of telangana by GOVT OF INDIA) > (said by sree Krishna committee).**

Above all reasons proves that Present Ongoing telangana movement is stepping to a burning stage & shaping as a volcano mountain to blowout in the Hyderabad.

## REAL ECONOMY GROWTH

### IF EVERY MAN IN VILLAGE/CITY DOES HAVE

- *A small own home to live securely.*
- *Opportunity for cultivation/employment. (JOBS to earn & live).*
- *Free education by government or affordable quality education.(Increase literacy).*
- *Affordable prices for food, cloth, medicine, FMGC.*
- *(Opportunity to grow).*
- *Opportunity to Increase Saving & multiply savings securely.*

All the needs have not yet completely, appropriately & accurately fulfilled by government Since from decades until now. **More than 90% population.**

## TODAY'S GROWTH

- *AIRPORTS,*
- *FLY OVERS*
- *HIGHWAY ROADS,*
- *SHARE TRADES, PRIVATISATION, CONTRACTS etc.*

**Only 10% population** are with business trades in AP.

BUT government investing huge amounts for the development of rich people business it is not a real economy growth. Because **Government should work for people not for investors**

Above Data Is answer to especially for seemandra people who raise voice of telangana region developments.  
If Government Would Have Collected Tax & Controlled Corruption There Would Be Only Very Few Investors till now In INDIA.

**JAI TELANGANA.**
