

Telangana is Imminent: Congress Must Do or Die, T Cong MP's and MLA's must quit

Congress must take a decision on Telangana. It cannot survive in AP, without a decision on T. If not Today, If not in this week, but sometime in near future, they have to. Congress High command is falling prey to all sorts of misinformation, miscommunication and mismanagement. Political policy paralysis is all pervading at Centre. It's wonder that it's loosing every opportunity to solve the problem.

Congress is failing all democratic processes. Politicking, manipulations are order of the day. Statesmanship is rare word to listen. Centre shows utter discourtesy to agony of AP. Nine crore population is reeling under crisis for last nine years. One thousand youth from Telangana were forced to hang or burn or spill the poison.

Congress seems to be readying itself for doomsday in AP. It's playing every spoilsport by day in and day out. Seemandhra Lobby is able to pressurize the High Command to postpone the decision on two arguments- one, If Centre takes a decision on Telangana, the Governments at Centre and State will fall, as they will resign. Two, If Telangana be not given, we will get the 30 seats from AP, with the support of Jagan. May or may not, there are rumors that High Command was bribed, many a times to stall the T formation.

But, how long? Why T Congress MP's and MLA's use the same weapon. Can't they destabilize central and state governments? Can't they show the doors to Congress in Telangana? Let the T congress fight back. This is the time to show the commitment and dare. If not history will record this cowardice and slave mentality once again.
